## Additional Information

- The sum of Metrics 1(a) through 1(f) may be greater than Metric 1 if a formal complaint/report consists of multiple categories of sexual violence. Some instances of sexual violence may include multiple types of violence. An incident recorded in Metric 1, that comprises of different types of sexual violence is also counted in each applicable category of sexual violence in Metrics 1(a) to 1(f). Thus, the sum of Metrics 1(a) through 1(f) may be greater than Metric 1 if individual incidents consist of multiple categories of sexual violence. The College has used its discretion to appropriately categorize formal complaints based on the descriptors provided above.
  - For example, a formal complaint/report of sexual violence that included stalking and sexual exploitation would be reported to the ministry as one count under Metric 1, one count under Metric 1(c) and one count under Metric 1(f).
- All incidents of sexual violence affecting a student that the College has accepted as a formal report/complaint has been included in the data reported, regardless of the location of the incident or when the incident occurred.
- For the purposes of this reporting, all formal complaints/reports initially made to the College have been reported, regardless of outcome of the complaint (e.g., complaint/report is subsequently withdrawn or not investigated).
